

I. Review

We have been in Psalms 14, and we decided to hold up here because Psalms 14:1 says, “*The fool hath said in his heart, [There is] no God...*” So we have been focusing on many of the questions that you are going to get as you deal with people who are skeptics towards the word of God.. As we are going through in our Patterns of Human Nature class, I am trying to give you everything you need to know about any scenario in dealing with people. That you can really know how to use the principles involved with any situation and these questions go along with this. Because if you are going to work with people, these questions are going to come up. I want you to thoroughly understand them. So, it is worth our time to go through these.

➤ Sodom & Gomorrah – The True Reason it was Destroyed

Last week we looked at the key issue today in our country as far as a social standpoint. I don't know if any other issue that has changed America more than this one has done. This one has destroyed families. It has destroyed any moral authority and ruined this country from the inside out. We talked about the question that is going to come up based on Sodom and Gomorrah and the rise of homosexuality and the Gay Movement. We talked about how it changed the face of America and the very fabric of society in our country. The question had to do with God destroying Sodom and Gomorrah. For years it was taught that the city was infested with homosexuality lifestyle and God wiped them out because of that. Today as we have moved into the modern times, (like I showed you last week) once you lose the word of God, things that were once sin now become the good things and the good things now become the bad things. We are told that God did not destroy Sodom and Gomorrah because of the rampant infestation of homosexuality but rather a general sense of wickedness. The questions centered around that issue.

This opened up a tremendous opportunity for me to walk you through everything in the Bible about this and build it around Genesis 19, the story of Sodom and Gomorrah. I showed you God's understanding of it, how He views it, and the judgment that concerns it.

I showed you the Old Testament verses in the Bible where the kings of Israel, one would be good and then one would be bad. Much like our society today. One good king would come along and kick them all out and then thirty years later a bad king would come along and put them back in again. It is just like we see in our country with the politicians moving in and out of office. Some of them stand for right and some of them don't.

Then we looked at the New Testament in Romans 1 which is probably the greatest chapter in the New Testament that shows you how God looks at it from the Gentile perspective. In both cases we saw it was an abomination, sin and totally against God and His laws.

➤ Natural and Unnatural Sins

When it comes to sin, there are natural sins and unnatural sins. When you get into Romans 1 you will find that homosexuality and lesbianism is an unnatural sin. Natural sins would be adultery, fornication, lying, these are all natural sins. Sin gets darker when you enter into the unnatural sins. These are all satanic in their origin and placement.

There are four levels of unnatural sins:

- 1.) Homosexuality and lesbianism
- 2.) Sex with children or pedophiles
- 3.) Bestiality which is sex with animals
- 4.) Sex with dead people, necrophilia

I know this sounds terrible, but it is out there. You will find all of these in the Old Testament. Then we went to Genesis 19 and laid out the story verse by verse, section by section. I showed you that the crime of Sodomy is still on the books in twelve states.

I showed you 1 Kings 15:12 where Jeroboam when he wanted to clean up Israel, he got rid of all the Sodomites. You can't get around the fact that it keeps going back to Sodom and Gomorrah. I tied it all together with Genesis 19 and the reason for it being accepted today in the openness of our society.

Two great verses that put everything into a context for you of what we are seeing today is,

Luke 17:28 which says, *“As it was in the days of Lot...”*

Whatever was going on in Lot's time was rampant homosexuality and it is going to be here right before the second coming. The other verse is Matthew 24:37-39 where it says,

“But as the days of Noe [were], so shall also the coming of the Son of man be.”

Those two verses are contextual verses on the second coming of Christ. It shows anyone who is paying attention when you see this going on in the world you are close to the second coming. **As I said, you need to deal with it with grace and truth.** You may have the truth, but you got to deal with it with grace.

II. The Bible Account of Creation Verses the Theory of Evolution

I told you about Proverbs 26:5 where the Bible says, *“Answer a fool according to his folly, lest he be wise in his own conceit.”* There is a time when you answer a fool according to his folly and I want you to be able to do that. I want you to be able to deal with the circumstances from the Bible. All of this is based on Psalms 14:1, *“The fool hath said in his heart there is no God.”* My goal for you is to have the ability to go toe to toe with anybody that has an issue with the Bible or a question about this. As the Bible says, *“But sanctify the Lord God in your hearts: and [be] ready always to [give] an answer to every man that asketh you a reason of the hope that is in you with meekness and fear” (1Peter 3:15)*

I want you to understand this and be able to have the ability to talk intelligently with people on this stuff. I think that is the problem with most of God's people. Some unsaved people that have been trained in that area of life look at Christianity with disdain. They run into Christians all the time that don't know what they are talking about. They run into Christians all the time that don't have the ability to talk with them on a reasonable intelligent platform. Where you can listen to what they say and then take them to the word of God and show them what the Bible says verses what they are trying to tell you.

I learned many years ago that if I was going to be an effective witness I had to know a little bit about a lot of things. Once you tie it back to the Bible then it becomes an easier thing to do.

You are going to hear this from NASA, SETI the people looking for intelligent life, Elon Musk and science and archaeology. It is before you 24/7.

Question #14 The Bible's Account of Creation Verses the Theory of Evolution

➤ A Bit of Bob's Testimony

Let me give you a bit of my testimony. I am not somebody who doesn't know what he is talking about on a subject like this. I have spent most of my life looking through an eyepiece of a telescope. I was into astronomy from the time I was big enough to put a telescope up. I have studied everything there is to study. I have studied all the theories that are out there and there was a time when I actually believed all that. I thought that science and evolution was the answer. I didn't understand it all, but I was a victim just like so many people today. I got into astronomy so deep. I got into astrophotography. Some of you have seen the pictures I have taken. In the 10-15 years that I was into that I took a picture of every galaxy and every planet in the northern hemisphere. I am not somebody like most Baptist preachers that don't know what they are talking about. I was in astronomy clubs with people that believe that. I have listened to their lectures and read their books. My testimony on this is that I am a reasonably intelligent individual on this because it was my whole life before I got right with the Lord. Once I got right with the Lord all that stuff that I was taught that was bad, once I got the Bible, ended up being invaluable. Because I already had a base of false teaching to give the true teaching through.

So, the question is going to be, **why don't you as a Christian believe in evolution?** Like everything else, higher education tries to take the truth and make it as far out of reach as they can so that you have to depend on them to get it. I will never do that.

➤ The Theory of Evolution

Around 1859 a British nationalist named Charles Darwin wrote a book (The Origin of Species) and he put forth a theory which was the theory of evolution. He taught that we started from a lower form of life four or five billion years ago and evolved to our present state. We started out as a worm or amoeba, a one-celled animal and through the millions and billions of years, here we

are. We are told that man first stood up and walked on two legs around two million years ago. That we came from an ape and through the process of evolution here we are today. You will find when it comes to the guys who do evolution will base their whole concept on a circular reasoning mindset.

❖ Strata – Layers of Rock Formations

If you are digging dinosaur bones and you dig down layers, those layers are called strata. Strata represents maybe one layer of rock from another layer and as time goes on dirt and rock piles up. So, they will say, well this strata here we are 100,000 years ago and this strata over here we are 400,000 years ago and on down it goes. So, they use circular reasoning.

❖ Carbon 14 Dating

I know everybody likes to think about carbon 14 dating, but it is absolutely worthless. Carbon 14 dating depends on the rate of decomposition of carbon based on our atmosphere. But if our atmosphere has ever been changed then carbon 14 dating is thrown off. In the Bible our atmosphere has been completely changed two times, Genesis 1:1-2 and Genesis 6 (flood). So, they are digging down there and they find this dinosaur bone and the guy says this dinosaur bone is 3 million years old. Somebody says well how do you know its 3 million years old? They say, look at the strata that we found it in. They say, how do you know the strata is 3 million years old? They come right back and say look at the dinosaur bone we found it in. In other words, there is no ability to accurately date any of those things. If you want dinosaurs in the Bible, I will show you where you can find them.

❖ Darwin's Theory of Natural Selection

So, here we are today. I once was an amoeba when I began to begin, then I was a tadpole with my tail tucked in. Then I was a monkey in a banana tree and now I am a professor with a PhD. That is how it goes. Darwin taught a system of natural selection. He taught that the Earth came into existence five or six billion years ago. Nobody knows for sure how. There are all kinds of theories about it. So here we are. We evolved through this natural selection, all life as we know it has evolved to our present state. I mean from homo sapiens to homosexual, boy isn't evolution great!

❖ Animals Follow the Law of God

So, we all came from animals. Have you ever noticed that an animal will not disobey the laws of God. I have never seen a homosexual cat or dog. They say there is some trait between humans and animals. There is a clear break between animals. I have never seen a mother dog or cat, or lion abandon their kids. They don't abandon their kids; we do those things. Animals follow the law of God. Yet some idiot wants to tell me that we came from them. No animal will leave its mate for another mate. *The fool has said in his heart that there is no God.* I want to start by having you understand some fundamental things in six key areas.

III. Six Key Areas

1.) Evolution is not a new idea.

Evolution was not discovered by Darwin. In the book of Ecclesiastes 1:9 you will find it says there is nothing new under the sun. There are no new inventions that man comes up with. No new theories that man puts forth. In the ancient histories, the Egyptians, the Babylonians, the Greeks and the Romans all had their form of what they thought was their idea of evolution. It has been around for a long time. I am going to explain that to you in just a few moments. It is like everything else in the Bible. It happened in the Old Testament. The devil then in the New Testament on the other side of Calvary repackages it and puts it out like something new. People are so stupid when it comes to history that they think it is something new and they fall for it. Romans 1:22 says, "*Professing themselves to be wise, they became fools.*" Psalms 14:1 is the text that we are dealing with through all this, that the fool has said in his heart that there is no God.

2.) God brought about 7 great awakenings, & the devil brought in 7 cults, corrupt bible versions and evolution!

When America was established, God brought across America seven great spiritual awakenings. The first one starts with Whitefield and Jonathan Edwards. The last one goes by the wayside around 1950. There were seven great awakenings that God injected the Holy Spirit of God into this country to keep this country close to God. During that time those seven great awakenings, what did the devil do? The devil came up with seven cults and almost within a year or two of the great awakenings came the cults. The devil counterfeited what God was doing. We see that from 1700-1950's that everything that God did, the devil countered. Add to that in 1850 great revivals were taking place across America. A great revival was about to break out in the south during the Civil War. **God's hand was moving across this country, while the devil was using other cult religions to counter that. At the same time the devil brought in the world's versions (bibles) and he brought in evolution.** Evolution was the repackaging of the old pagan evolution going all the way back to the Egyptians and Babylonians. Man thinks its something new and it is nothing more than a counterfeit to counterfeit the work of the Holy Spirit of God that was going on in America.

3.) The Bible teaches that there is a difference between man and animals.

Man is a unique individual created by God. It is these little things that God uses to show the falsehood of the evolutionary process. When you deal with an evolutionist, they look at this between man's evolution from an animal, they have what they call a missing link. They have never been able to find or define what that missing link is. **If you are a Bible believer and are saved, the missing link is that you as a human being created by God, have a soul and animals don't.** That is the missing link. Birds are the greatest singers, yet birds cannot sing in four-part harmony. Your dog can communicate through trained behavior. You can teach your dog some incredible things. Our dog Izzy is the sweetest dog. She is laying on the bed and

looking at me. I can yell at her and say, "YOU ARE THE BEST DOG IN THE WORLD, I LOVE YOU", and her tail will go between her legs and her ears go down. Then again, I can softly say to my dog, "I am going to get a ball bat and beat you senseless" and her tail will be wagging away. You see they don't understand. There is a missing link between animals and humans. The Bible says that man was created by God, and he is unique.

➤ Fingerprints - He sealeth up the hand of every man.... Job 37:7

It is the little things that God uses, look at Job 37:7. This is so simple and basic, yet it blows the evolutionist right out of the water. In Genesis 2:7 the Bible says that *"..God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living soul."* He has a soul. An animal doesn't. But look at this verse in Job 37:7:

"He sealeth up the hand of every man; that all men may know his work."

Do you know what that is talking about? That is talking about your fingerprints. You have something so unique about you that no other person has on planet Earth. When God created you, He gave you something that sets you apart from the person sitting next to you. There are no two sets of fingerprints alike. Now how did that happen through evolution? I mean, give me a break! That verse says, *"He sealeth up the hand of every man that all men may know his work."* **There is the proof that you are of God. You are unique! Evolution could never do that!** God told you that to show man his work, He sealed up the hand of every man. It wasn't until the 1920's that a man discovered the difference between fingerprints. Now they can get your fingerprints and find out who you are because no two sets of fingerprints are alike.

➤ Man has been here for 6,000 years

The Bible teaches that man has been here for 6,000 years and there is going to be a thousand-year Millennium, so the total space from Genesis 1:2 to at the end of the Millennium is a 7,000 year period. How ludicrous that sounds to an evolutionist. The Bible says in Genesis 1-2 that God created everything in six days. He made Heaven and Earth. He made the sun and the moon, the stars and galaxies. The trees, the animals and He made man. Then God's eternal plan starts off and goes into effect, but man has only been here for 6,000 years and another thousand coming. Then that is it. What God did, according to the Bible is He had eternity past and eternity future and God put a little parenthesis of time in there where He dealt with man about his soul, his sin and God's plan. God's plan ran for total of 7,000 years in our time. Evolutionists will just go bonkers over that. Evolutionists will have you to believe that our Earth is four or five billion years old. Formed out of some cosmic event that created the whole universe and everything in it. Yet when they tell you that they can't tell you how that happened. Some will say it was in the encounter theory or the nebulous theory. Some will say it was the big bang theory. They say everything in space, the planets, the galaxies are evolving upward from a point source when it all came into being. Yet they can't tell you what that point source is.

- Scientists don't really know far away galaxies and stars are, like most science it's bogus

I have been in astronomy all my life and my favorite galaxy was NGC 897. There got to be so many galaxies and clusters that back in the 1700's a guy by the name of Charles Messier a comet hunter, cataloged them. He would look through his telescope and see all these fuzzy things and he couldn't really define them. So, he created a catalog of what he was looking at. Messier was his last name so he would catalog them as M1, M2, M3, etc and I think it went up to 110. When telescopes began to be really good with research, they realized that the Messier program was very inadequate. So, they developed what they call an NGC, a National Galactic Catalog where they would assign these galaxies a number.

My favorite was NGC 897. Galaxies are like spirals and sometimes the galaxies will be face on where you see the spiral and sometimes they will be edge on where you are looking at the edge of the galaxy. Right in the middle is a little bulge which is all the stars shooting out of that. NGC 897 is a spiral. It is incredibly beautiful. When I first saw it I wanted to photograph it. So, I did a little research on it and found that they said the NGC 897 was 800 million light years from planet Earth. Light travels 186,000 miles a second. If you get into a rocket ship and travel the speed of light (186,000 miles per second) it would take you 800 million years to get to that place. That is how far it is. I was blown away by that. Then I asked myself, the closest star is Alpha Centauri 4.7 light-years from Earth. If you got in a rocket ship traveling 186,000 miles per second, it would take you 4.7 years to get there. Those things would just boggle my mind. Some of these galaxies are at incredible distances and I would read about all these things. A guy would say this one is 400 million light-years distance and this one is 80 million light-years distance. I got to thinking, how do you know that? So, I did a little investigation and found out it is like most science, it's bogus! They don't know how far it is. They try to measure red shifts and all those things but at the end of the day they make up the equation that tells you how far it is. So, when they tell you it is 800 million light-years away, it may be 900 billion or trillion light years. It may be right around the corner, they don't know. **Science always takes theory and makes it fact and takes fact (the Bible) and makes it speculative theory.** I have been in this for a long time. I know how these guys work.

I was at a lecture one time and this guy was a proponent of the big bang theory. The big bang theory is that billions and billions and billions of years ago there was nothing here and then a big bang happened. Some kind of cosmic explosion that created everything, threw it into a chaos state and then everything started to evolve. I remember years later seeing the fallacy of that and seeing how the devil will reverse what God does. Man thinks it all came in with a big bang. The Bible says its all going out with a big bang. But let's not deal with theory or get caught up in the debate of it all. Let's examine some hard facts to see the truth. As I said a couple of weeks ago, there is no variation of the truth.

4.) The Law of Gravity, a Biblical Principle

In science you have laws. One of these laws is the absolute protocol that everything runs by. That is the law of gravity, it doesn't float up, it falls to the ground. The law of gravity is a

Biblical principle because there is some force that is trying to pull you down and if it wasn't for the Earth that you are standing on, we know at the center of the Earth is a place called Hell. Gravity would pull you straight there if it wasn't for the Earth that kept you from going there. When you die if you are unsaved, you step out of this body and now you have the spiritual soulish body that isn't relative to anything solid, so you know what? The law of gravity which is a Biblical law takes over and down you go. Why do you think they call it an undertaker?

If you are saved when you die you don't have to worry about the undertaker. Do you know why? You got an upper taker, and you don't go down you go up. You defy the law of gravity. But you have laws that everything in the universe runs by. The fools of evolution seem not to care that the ideas of something evolving, going against the very laws that everyone who is an evolutionist subscribed to, believe and would defend with their life.

▪ Two Fundamental Laws in Science

There are two fundamental laws in science. They are called the first and second law of thermodynamics. The first law of thermodynamics is the fact that matter can neither be created nor destroyed. It just changes form. When somebody tells you that the big bang happened in the past that created it all and started it all from nothing, the very laws that they follow and believe say that can't happen. The second law of thermodynamics is called the law of entropy which means that things aren't running up they are running down. This universe is not running up. **Somebody says we are evolving up. NO, the whole universe is running down.** Everything on planet Earth is not running up. Somebody says you are evolving. When you drive your car off the lot when you just bought it, you just lost \$5,000. They will say things are getting better How is your house doing? Need a paint job, a new roof, your dishwasher on the blink? Why hasn't it fixed itself? You see the very laws that everybody ascribes to; when it comes to the truth of evolution that things can't come from nothing, and things aren't running up its running down. They reject it. The older you get, the worse you are. If evolution was true, we wouldn't be getting older, we would be getting better. Things aren't getting better! Can't you see that everything is going down? But you see the dishonesty of it is the fact that they won't ever admit to the very two laws that they ascribe to. Let me show you how dishonest these people are.

Here it comes. Are you ready for this? This is Bob sitting there looking at things 20-30 years ago and saying, wow! Our sun is an amazing thing. Our sun has a diameter of 865,000 miles, that is big! Yet our sun is just a normal star. We look at it and we think of it as the sun, but we don't think of our sun being like when you go out at night and see stars. Those are suns too. They are just so far away that if you got into a rocket ship and went out past Pluto and looked back you wouldn't be able to see the Earth. But the sun would just look like a bright star. The farther you get the dimmer it would be. I began to look at the sun through a telescope. You have to have special filters to look at the sun. I studied the sun and sunspots. Our sun, which is an average star, is nothing more than 100 trillion billion zillion nuclear blasts going off every microsecond. That is what makes the sun, the sun. The sun loses 900 million tons of energy a second.

That got me to thinking. Losing energy at that rate? If you do the math, I got a calculator and 60 seconds in a minute, 60 minutes in an hour, 24 hours in a day, 365 days in a year. The Bible says that God created two great lights. Genesis 1:16 on the fourth day of His recreation which is September 23rd 404 BC. Scientists will tell you the evidence shows that the sun has been here 4.6 billion years. If that was true about the sun losing that much energy, **(and it is not)** we will stick with the Bible. But if that was true, and the sun is losing that much energy every second, backing that up to four to five billion years. You would have a sun that would be bigger than 20 universes. It just isn't true. **God created the sun and the moon and the stars Genesis 1:16-17 in the six days of creation on the fourth day. Nothing like science to prove the Bible right.**

5.) Evolution says man has been on Earth as a human being for about 2 million years – Not So!

Evolution says man has been on Earth as a recognized human being for about two million years. Not some protocol half man, half ape, but as an upright walking individual for about two million years. In other words, two million years ago he got up and went into a walk. He says I am tired of crawling around here like a slug, I am going to get up and walk. When you read the accounts of the men who study the ancients in the evolutionary process, every one of them will tell you that in ancient history, man may have been here for two million years. But it was 5,000 years ago that man began to keep records and write things down. That is exactly when the Bible says God put it all together. He had been around for two million years and after all that time, 5,000 years ago he found a pencil and a piece of paper.

I read an article this week that an evolutionist wrote asking when did man began to wear clothes? That is an interesting question. You know what he said? He said that the oldest clothes we could find in all of our digs go back around 5,000 years. Exactly the same time of the Bible. I mean how stupid are you? Man walked around naked for 2.5 million years and then came around the corner and there was a Wal-Mart, so he got a pair of jeans for \$12.95. You see as a fool you will never get around the Bible. I don't care how you try to package it; you will never get round the Bible in this life nor when Christ comes back. You most certainly will hit Him head on at the judgment if you are unsaved. If you are saved you will certainly hit Him head on when it comes to the judgment seat of Christ. You cannot get around the Bible.

If there is any one thing that will show you evolution will be a fool's dream, it will be science itself. Science is its own worst enemy when it comes to false teaching because they base it on laws that are absolute. When you put a false teaching up against an absolute law, if you are honest, you see the fallacy of it. But when you have an agenda against God and the Bible, you are a fool that says in your heart there is no God. You can see where this becomes an asset to them.

❖ Statistical mathematical probability

You will remember several weeks ago I explained to you the statistical mathematical probability. That mathematically you can prove something being real or false through a mathematical process of the statistical probability of it. I showed you by the system of science in statistical

mathematical probability how you know that the word of God was what we claim it to be. If you remember back several weeks ago, I showed you that there were 48 prophecies in the Old Testament that were given about Christ. 600-1,000 years before He was born. These weren't general prophecies; these were prophecies of where He would be born, how He would die, every aspect of His life. I also showed you the statistical mathematical probability scientifically of 48 prophecies about a man given 600-1,000 years before He was born. The chances of all 48 prophecies coming to pass on the exact day, the exact time, in the exact manner was 10 to the 157th power. That number is 10 with 157 zeroes after it. There is not 10 to the 157th electrons in our universe. Our universe runs according to them, 600 million light-years in all directions. There is not 10 with 157 zeroes after it of electrons in our universe. That was the chances scientifically of that Book coming to pass as God said it would at the first coming of Christ. We can't get around it. Every one of those prophecies was given 600-1,000 years before He was born. Every one of them came to pass. You know what that says scientifically? You got a King James Bible in your hands; you got the right Book. You don't need Charles Darwin and Origin of Species; you got the right Book. Yet it was the wise men from the east who knew exactly where Jesus was, where to go and how to get there. Even the time of year, the date and time, and they followed those exact same prophecies that are listed in the Old Testament.

❖ Math is the key to everything in the universe

I told you that math is the key to everything in the universe. Math is the universal language. Everything is a mathematical formula. So, when God wrote the Bible, He put a book in the Bible so you would figure that out, called Numbers. God is a mathematical formula.

Billy Graham witnessed to Albert Einstein at one time and tried to win him to Christ. Albert Einstein said, Mr. Graham, I appreciate your endeavors, but I could never accept a God that is not a mathematical formula. Einstein was a mathematician. As far as I know that old renegade Jew died and went to hell. But he didn't know at that time how close he was to discovering who God was, because God is a mathematical formula. You find God through a number system. You got to get into your Bible, the sixth book, the 20th chapter and the 14th verse. It's a number system. Then once you find God He is going to teach you the word of God through a number system. God's systematical theology through the number of sevens in your Bible.

An unsaved mathematician will tell us that the largest number that man has in our world will be a centillion. How big is a centillion? One centillion is one with 303 zeroes after it. That is an incredible number, and it is hard to put the large numbers into our peanut brains, but I will try. If a man could count 1,2,3,4,5, etc. and do that one number per second, 24/7 he could reach one million in 32 years. If he decided to push his luck and go for three billion, it would take him 100 years and that is nowhere near to a centillion just counting a number per second.

In a book called Science Speaks, a mathematician said that in our universe the electrons in our known universe is 10 to the 50th power. That is 10 with 50 zeroes after it. That is a big number. He also says that the number of stars in our galaxy is around 10 octillion. Keep in mind that one octillion has 27 zeros after it. A French mathematician stated in his writings that any event and the probability of it happening could never exceed the number of electrons in our universe.

Whatever the probability of something happening mathematically is, it cannot exceed 10 to the 50th power, because the probability number would be higher than the known physical universe. Which is 10 to the 50th power and that would be impossible. That is not Bible! That is science.

➤ The Bible a Supernatural Book

I showed you a couple of weeks ago how the Bible is a supernatural book. This guy said that if the number probability mathematically supersedes 10 to the 50th power which is the electrons in our universe, the event could not happen because something physical cannot happen larger than the physical universe. Yet I showed you that your King James 1611 Authorized Version, the supernatural Bible that God gave you, the chances of it were 10 to the 157th power. Over a 100 more zeroes and yet every one of them came true. You know why? You got the supernatural Book that science can't explain, but they certainly hate. Using that and the mathematical formula, statistical mathematical probability, the chances of evolution and its probability of it all coming from nothing and here we are. The chances against that happening are 10 to the 40,000th power. That is 10 with 40,000 zeroes after it. According to science itself evolution can NEVER happen because it is way over the 10 to the 50th power.

Let me give you the bottom line. I give you all of this to educate you. You are going to have to take this, digest it, slice it up, repackage it for yourself and learn how to use it. For yourself first, that you understand it and then how you are going to get it to those you are dealing with.

A couple of weeks ago I gave you one of the rules on how the devil will work. I mean you got a Book that is 10 to the 157th power and yet 48 prophecies come right on the money. Yet the guy tells you that can't happen because it's impossible. But it did happen, you know why? Because that is not a natural Book, it's a supernatural Book. I told you that the devil will always give you the counterfeit before the real item shows up. This is invaluable in looking at history and everything that goes on.

Here is another rule. The devil will always take what God is doing and reverse it so man can't find out what God is doing. Then through the reversal process he will damn man's soul to hell. God told Eve don't eat of that fruit. The devil said no, no, no, you can eat. He reversed it and what happened with that? God tells us of hell, eternal damnation and then the devil gives us Jehovah Witnesses and liberals that tell you there is no hell. He reverses the process. God gives us the premillennial return of Christ. The devil's crowd comes up and reverses it and give us post and a-millennialism. Everything that God does when the devil wants to repackage it and bring it to man, he knows that 99.999% of men and women on this planet don't know anything about the Bible. **So, the devil gets away by taking truth that will give you life and reversing it so that it will send you to hell.**

Now watch! The devil has beguiled man into thinking that he started from nothing and rose through evolution to what he is today. That he will continue to get better and in time through evolution solve all the issues that mankind is facing. This is what they thought in Genesis 6. This is what that are looking for with the big radio telescopes, intelligent life in outer space. They will find it, just not that way. They are thinking that somebody out there that has the ability to fly from some distant galaxy to this planet must have evolved to superior technology. If we can

connect with them, it will move our evolutionary process that we can learn from them the secrets that they have learned through their evolution process. Now we can solve all of man's problems. The devil will always reverse what God has done.

6.) Evolution Process is a reversal of the devil against God's process

The truth of the matter is the evolution process is a reversal of the devil against God's process. Evolution tells you that man started out with nothing and evolved to where he is at. The Bible teaches that man started out perfect in a garden. Fell in that garden and has been degenerating ever since. Evolution says that we started out as some kind of one-cell animal, or the Egyptians and the Babylonians think we were a worm that crawled out of the Nile. And here we are standing up 2 million years ago walking now as homo-sapiens and we are intelligent and have evolved through all this stuff. Yet Isaiah 66:22-24 says:

22. *For as the new heavens and the new earth, which I will make, shall remain before me, saith the LORD, so shall your seed and your name remain.*
23. *And it shall come to pass, [that] from one new moon to another, and from one sabbath to another, shall all flesh come to worship before me, saith the LORD.*
24. *And they shall go forth, and look upon the carcasses of the men that have transgressed against me: **for their worm shall not die**, neither shall their fire be quenched; and they shall be an abhorring unto all flesh.*

You see the devil just reversed it. Evolution wants to get you to think you started as a worm and now you are a perfect man. The Bible is telling you started out perfect and you are headed to be a worm in the lake of fire. See how that works? The very college professors, the very people who walk this planet and write the books they fall into that trap, and they are telling your kids and you, if you listen to it. That you started as a worm and look where you are at now. **NO, you started perfect in a garden, but you are going to wind up as a worm where the fire is not quenched.** Evolution in reverse. The devil always does it that way. If you can get that one thing down and learn that it will open so many doors for you. It's unbelievable!

I want you to see the devil tells man that you started out as nothing. A one-celled animal or worm and you evolve now to the greatness without God. The Bible tells us just the opposite. Man started out perfect and degenerates to a carcass and a worm. Notice in verse 24 it says where the worm shall not die.

Psalms 22 is a crucifixion Psalm. Jesus Christ is dying on the cross and when you get down to verse 6 this is what God says about His Son when He dies on the cross. He says, "**But I am a worm and no man, a reproach of men and despised of the people.**" Do you see that? We always talk about the fact that Christ died on the cross and paid my price in hell. He did! He reversed the process, and He took the process of being a worm in the lake of fire for you and put it on himself. Because He knew what the world was going to try to tell you. That you started out nothing and became a man. But the truth of the matter is you started out perfect and He didn't want you to wind up as a worm in the lake of fire (Isaiah 66).

IV. Summary

You wonder why I love the Bible. You wonder why truth is so important or should be to God's people. These are things you need to learn and understand. These are things that the people that you are going to talk to, the people you are going to deal with; they need to know. He took degenerate man's place because He knew that the world was going to tell you that you started as a worm, but you end up intelligently perfect. When the truth is you started out perfect and you are going to wind up as a worm. God sent His Son knowing that you and I were going to wind up as a squiggling, scabbling carcass in the lake of fire. Sometime when I get a chance, I will explain why it has to be that way in the lake of fire. Why you will have to go back to being a worm. You see you are a carcass. A carcass has no arms or legs. God saved you. God came down and died. He took your place. He became a worm so you wouldn't have to be that worm in the lake of fire. God had a plan for each man and woman on this planet. God gave them arms that they could serve God. God gave them legs so they could carry the gospel. They refused to do it. They believed the devil's lie. So, the arms that God gave them to carry the word of God and to preach the word of God; and the legs that God gave them to walk this planet with a message of God; in the lake of fire He takes them back. You don't have any arms or legs. You are a carcass; you are a worm. The lake of fire is a squiggling mass of billions and billions of men and women who had everything that God wanted to give them and rejected it. Because the fool has said in his heart that there is no God. They believed that they started as a worm and wound up being this great thing. What a reality when you close your eyes to the sleep of death, and you wind up in hell. The reality of the truth, but it is too late.

It is no wonder the guy in Luke 16 says, I've got five brothers, go tell them!! Nobody told them. **I am telling you He gave you those arms, He gave you those legs for the work of the ministry.** When a man says in his heart that there is no God, when you get to the final state of man through evolution in reverse, the true evolution, the true degeneracy of man; He takes those legs and arms, and you are just a worm. You are a carcass.

One of the greatest teachings and most terrifying teachings throughout the word of God. All he leaves is a head with a mouth. In this life when you should have used that mouth to preach the word of God and the living truth of a living God to a lost world in a lake of fire without any arms or legs. He lets you have your mouth so you can scream through all of eternity. Because the fool has said in his heart that there is no God.

Learn this stuff. This is the truth and the facts that you need to have in your arsenal so when you talk to people you are reasonably intelligent.
